# Your 5 Seasons explained:

**Crystalide (Spring / green):** Nature awakens. The clear and pure sound of the Crystalide chime resonates with the Heart chakra, promoting spiritual connection and higher consciousness. The Crystalide sound is perfect for soundhealing and mindful exercises. It represents Mother Nature. The color green evokes compassion and harmony.

**Sunray (Summer / yellow):** The joyful and bright sound of the Sunray chime corresponds to the Solar Plexus chakra, boosting personal power, confidence, and self-esteem. The sound of the Sunray is a lovely companion for mindful exercises and soundhealing and Yoga due to its fresh sound. Yellow supports the development of our personality and inspires us to discover our own power.

**Sufi (Intermediary / purple):** The Zaphir Sufi embodies the transition between the seasons of summer and autumn. It combines the elements fire and water, therefore violet is the perfect color for this chime. It is highly recommended for sound healing, dream journeys, and relaxation exercises, especially after a Pilates or yoga session. With its deep fundamental tones, it offers a wonderful opportunity for relaxation.

**Twilight (Autumn / red):** The gentle and calming sound of the Twilight chime harmonizes with the Heart chakra, fostering love, compassion, and emotional balance. The Zaphir Twilight with a slightly deeper base melody and some high overtones reminds of a sunny autumn walk. The Twilight chime impresses with its harmonious combination of deeper and higher tones. The alternating deep and slightly higher tones create a wonderfully relaxing experience without losing too much focus. It is ideal for mindfulness training and can also be used for muscle relaxation exercises, especially in group settings.

**Blue Moon (Winter / blue):** The deep and introspective sound of the Blue Moon chime is associated with the Third Eye chakra, enhancing intuition, insight, and inner wisdom. The Blue Moon is particularly recommended for the Twelve Holy Nights (Yule). The Blue Moon is the best choice for meditation and deep relaxation, even before falling asleep.
